# **Internal Service Funds**

# **Employee Benefits Fund**

#### 2006 Cash Balance Statement

In 1993, the employee benefits fund was established. A portion of this fund is dedicated to the administration of the risk management section of the Department of Human Resources. Previously, costs associated with the administration of this section were funded with general fund monies. However, these costs were transferred to the employee benefits internal service fund soon after its creation. This fund's primary source of revenue is the monthly insurance premium paid by each division for all participating employees of the city's insurance program. The transfer of risk management expenditures to this fund more equitably distributes costs associated with insurance activities to all city divisions and funds.

| 2006 EMPLOYEE BENEFITS FUND BALANCE SUMMARY     |    |             |  |  |  |  |  |  |  |  |
|---|----|-------------|--|--|--|--|--|--|--|--|

|   |    |             |  |  |  |  |  |  |  |  |

#### Revenue Notes:

- The figures cited above reflect only the revenues and expenditures associated with administration of the risk management section of the Department of Human Resources.
- Revenues and expenditures associated with the payment of claims are not represented in this section.

### **Print Services Fund**

#### 2006 Cash Balance Statement

The print and copy center operates as an internal service fund, with costs supported by billing user agencies for print and copy services provided. The print services fund is projected to begin 2006 with an unencumbered cash balance of \$50,360 and is projected to end the year with a balance of \$63,332. Revenue receipts for 2006 are projected to be at the same level as 2005 receipts.

| 2006 PRINT SERVICES FUND BALANCE SUMMARY |           |  |  |  |  |  |  |  |  |  |
|--|-----------|--|--|--|--|--|--|--|--|--|

# **Land Acquisition Fund**

#### **2006 Cash Balance Statement**

Revenues to the land acquisition fund are comprised of charges to other city divisions for land acquisition services. The 2006 revenue estimate is based on a projection of 4,218 hours of services billed at a rate of \$195 per hour. This hourly rate became effective November 5, 2005, and reflects the fact that the division reviews its rate periodically and increases it when necessary to fully recover costs. The land acquisition fund is projected to end 2006 with a positive unencumbered cash balance of \$78,115.

## **Technology Services Fund Pro Forma Operating Statement**

In order to fully recover the costs of information technology services in 2006, the Department of Technology will continue to use a charge-back methodology utilizing a rate model that was implemented in 2004. In conjunction with the model for cost recovery, the Department of Technology will continue to use a time and attendance reporting system for many of its services. In 2006, both the Department of Finance and Management and the Department of Technology are committed to upgrading the rate model to one which better recovers the true cost to provide services of a technology organization.

A pro forma operating statement for the ten-year period beginning in 2006 follows this section. It represents the Technology Director's Office and the Division of Information Service's revenues and expenditures for that period. The major assumptions included are as follows:

- Administrative, telephone services, mailroom, government television channel and interconnet costs in 2006 are built into the hourly rates for all services.
- Total billable hours for all services are projected to be 62,504 for 2006.
- Hourly rates budgeted for each service category are as follows: desktop support \$174.84; server system administration \$261.97; application maintenance \$166.79; account management \$184.93.
- Network connectivity is billed as a shared cost. Help desk and web services are billed on the basis of availability. Production services are based on volume.

- The Department of Technology, Information Services Division's internal service fund incurs debt service for capital expenditures such as terminal replacement, system migration, network expansion, the city's Oracle site license, enterprisewide network management software, data center renovations, hardware upgrades and mass storage and other similar projects.
- Operating expenditures for 2006 and beyond are inflated at a blended rate of 3.8
  percent per year, representing the overall effect of inflation of 12 percent for
  health insurance, 4 percent for personnel costs (exclusive of health insurance),
  and 3 percent for most other operating expenses.

Details related to operations for year 2006 and beyond are as follows:

#### Administration

Directs the business office activities to provide leadership, administrative and fiscal support to other functional areas of ISD.

#### **Applications Programming**

Supplies development, design, maintenance and enhancements to computer programs and systems.

#### **Productions Service**

Provides continuous operation and maintenance of the city's computer systems, related peripheral equipment, data communications systems and post report printing operations. Includes maintenance and support of city mainframe equipment, lease of and maintenance on high-volume printers and Unix software licensing and maintenance.

#### Help Desk

Centralized help desk offers first level, technical assistance to user agencies, citywide.

#### **Desktop Support**

Deploys and maintains the city's desktop computer systems in a manner that ensures high availability to city employees.

#### **Systems Administration**

Includes funding for enterprise system management, NT and Unix system administration, account maintenance and hardware and software upgrades. Systems administration budget includes Windows NT support.

#### Security

Provides enterprise security management through infrastructure security and intrusion detection. Security budget includes security maintenance and anti-virus software.

#### 311 Support

Maintain systems and applications for the city's 311 call center.

#### Mailroom Services

Provides sorting and distribution of City of Columbus mail and funding for postage related to citywide mail processing.

#### Telephone Services

Coordinates telephone services, training and consulting for all city agencies.

#### **GIS Section**

Includes funding for contract project management, software maintenance, and in-house staff.

#### Metronet

Includes funding for operations and maintenance of the citywide fiber optic network. The metronet budget includes support for equipment maintenance, consulting expertise and in-house staff.

#### **Data Center**

Cost of operations including utilities, security and maintenance on the UPS and generator systems.

#### **Oracle Services**

Funding for enterprise licenses for Oracle software maintenance and support and Microsoft server licensing.

#### **Account Management**

Includes funding for information technology account management personnel and services to customer agencies. Account managers provide customer-specific business process expertise to city agencies.

#### Web Support

Maintain and support citywide Internet and intranet web applications. Provide Internet web site links for citizens and citywide departments.

#### **Government Television Channel**

Coordinates contracts for video programming services. Prepare scripts and provide editing services for production programs.

#### Interconnect

Design, oversight and installation of the city-owned fiber optic cabling plant. Provides preventive maintenance and repair of outside fiber optic.

# 2006 Revenue Summary

The Fleet Management Division recovers its costs by billing user divisions for services provided. The revenue includes a \$54 per hour labor rate, a 22 percent mark-up on parts, a 5 percent mark-up on commercial services and credit card fuel purchases, and a fuel overhead rate of \$.24 per gallon for bulk fuel.

Revenues, including the unencumbered cash balance and encumbrance cancellations, will total \$26,443,203 in 2006, an increase of 10.4 percent over the 2005 projection.

# Fleet Management Services Fund Pro Forma Operating Statement

A pro forma operating statement for the ten-year period beginning in 2006 is presented on the following pages. It represents the Division of Fleet Management's projected revenues and expenditures for that period, given certain assumptions. This document is essential in planning recovery rate percentage increases or decreases and for maintaining an acceptable end of year balance. The major assumptions included in this pro forma are as follows:

- Operations and maintenance expenses, excluding health insurance, are inflated at three percent per annum. Health insurance costs will grow by 12 percent after 2006.
- Debt service principal and interest have been broken out separately. The debt service principal and interest payments represent reimbursement to the special income tax fund for the retirement of bonds issued to design and construct the division's new facility.
- Debt service payments for design and architectural services for the new fleet facility began in 1999. An additional \$20,000,000 in debt is projected to be issued in 2005 for further costs associated with design services, land acquisition and construction costs for the facility.
- The recovery rates in the pro forma are adjusted as necessary in order for the
  division to maintain positive year-end unencumbered cash balances. This pro
  forma indicates a 6.5 percent increase in revenues in 2007 and a 3.1 percent
  increase in 2008 as necessary to meet that goal. Revenues in each of the years
  thereafter are adjusted to maintain a positive balance in the fund.
